MERIDIAN
CONTRACT SOLUTIONS

CAPABILITY STATEMENT

Meridian prepares research reports and supplier comparisons, reconciles spreadsheets, and builds software tools for government buyers and prime contractors.

Research reports and documents

Compare published information, summarize source material, and prepare reports, briefing papers, and operating instructions.

Deliverables: PDF reports, editable documents, source lists and comparison tables.

Spreadsheet reconciliation

Combine inventory or transaction files, standardize fields, identify duplicate records, and separate entries that need clarification.

Deliverables: CSV files, an exceptions log, a data dictionary and a record of changes.

Software tools and websites

Build Python utilities for file processing and browser tools for calculations, forms and public information.

Deliverables: Source code, a working tool or website, and installation and usage instructions.

Supplier quotation comparisons

Compare suppliers on delivered price, quantities, lead times, payment terms and exclusions.

Deliverables: A comparison report, cost schedule and recommendation tied to the quotations.
